

SAFETY DATA SHEET

1. SUBSTANCE AND SOURCE IDENTIFICATION

Product Identifier

RM Number: 8569
RM Name: Nitrogen and Oxygen Isotopes in Nitrate (USGS35)
Other Means of Identification: Not applicable.

Recommended Use of This Material and Restrictions of Use

This Reference Material (RM) is intended primarily for use in developing and validating methods for measuring relative differences in nitrogen (N) and oxygen (O) isotope-amount-ratios in nitrate. A unit of RM 8569 consists of a glass bottle that contains approximately 0.9 g of NaNO₃ salt.

2. HAZARDS IDENTIFICATION

Classification

Physical Hazard: Oxidizing Solids Category 3
Health Hazard: Eye Damage/Irritation Category 2B

Label Elements
Symbol

Signal Word
 WARNING

Hazard Statement(s)

H272 May intensify fire; oxidizer.
 H320 Causes eye irritation.

Precautionary Statement(s)

P210 Keep away from heat.
 P220 Keep away from combustible materials.
 P221 Take any precaution to avoid mixing with combustible or flammable materials.
 P264 Wash hands thoroughly after handling
 P280 Wear protective gloves, protective clothing, and eye protection.
 P305+P351+P338 If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses if present and easy to do. Continue rinsing.
 P337+P313 If eye irritation persists: Get medical attention.
 P370+378 In case of fire: Use water for extinction.
 P403+P233 Store in a well-ventilated place. Keep container tightly closed.
 P405 Store locked up.
 P501 Dispose of contents and container according to local regulations.

Hazards Not Otherwise Classified: Not applicable.

Ingredients(s) with Unknown Acute Toxicity: Not applicable.

3. COMPOSITION AND INFORMATION ON HAZARDOUS INGREDIENTS

Substance: Sodium nitrate

Other Designations:

Sodium nitre; nitric acid sodium salt; Chile saltpeter; NaNO₃

Components are listed in compliance with OSHA's 29 CFR 1910.1200; for the actual values see the NIST Report of Investigation.

Hazardous Component(s)	CAS Number	EC Number (EINECS)	Nominal Mass Concentration (%)
Sodium nitrate	7631-99-4	231-554-3	100

4. FIRST AID MEASURES

Description of First Aid Measures:

Inhalation: If adverse effects occur, remove to uncontaminated area. If not breathing, give artificial respiration or oxygen by qualified personnel. Seek immediate medical attention.

Skin Contact: Wash skin with soap and water for at least 15 minutes while removing contaminated clothing and shoes. Get medical attention if needed. Thoroughly clean and dry contaminated clothing before reuse.

Eye Contact: Immediately flush eyes, including under the eyelids with copious amounts of water for at least 15 minutes. Seek immediate medical attention.

Ingestion: If a large amount is swallowed, get medical attention.

Most Important Symptoms/Effects, Acute and Delayed: Skin, eye, and respiratory irritation; cyanosis.

Indication of any immediate medical attention and special treatment needed, if necessary: If any of the above symptoms are present, seek immediate medical attention.

5. FIRE FIGHTING MEASURES

Fire and Explosion Hazards: Negligible fire hazard. Oxidizer, contact with combustible materials may enhance combustion; risk of fire or explosion on contact with reducing agents. See Section 9, "Physical and Chemical Properties" for flammability properties.

Extinguishing Media:

Suitable: Water or other appropriate media.

Unsuitable: None listed.

Specific Hazards Arising from the Chemical: None listed.

Special Protective Equipment and Precautions for Fire-Fighters: Avoid inhalation of material or combustion byproducts. Wear full protective clothing and NIOSH approved self-contained breathing apparatus (SCBA).

NFPA Ratings (0 = Minimal; 1 = Slight; 2 = Moderate; 3 = Serious; 4 = Severe)

Health = 1 Fire = 0 Reactivity = 0

6. ACCIDENTAL RELEASE MEASURES

Personal Precautions, Protective Equipment and Emergency Procedures: Immediately contact emergency personnel. Keep unnecessary personnel away. Use suitable protective equipment; see Section 8, "Exposure Controls and Personal Protection".

Methods and Materials for Containment and Clean up: Do not touch spilled material. Notify safety personnel of spills. Absorb with sand or other non-combustible material. Collect spilled material in appropriate container for disposal. Isolate hazard area and deny entry.

7. HANDLING AND STORAGE

Safe Handling Precautions: Use methods to minimize dust. See Section 8, "Exposure Controls and Personal Protection".

Storage: Store and handling in accordance with all current regulations and standards. Keep separated from incompatible substances; see Section 10, "Stability and Reactivity" for incompatible substances.

8. EXPOSURE CONTROLS AND PERSONAL PROTECTION

Exposure Limits:

NIOSH (REL):	No exposure limits established for sodium nitrate.
ACGIH (TLV):	No exposure limits established for sodium nitrate.
OSHA (PEL):	15 mg/m ³ (TWA, total dust); 5 mg/m ³ (TWA, respirable fraction); Particulates not otherwise regulated.

Engineering Controls: Provide local exhaust or process enclosure ventilation system. Ensure compliance with applicable exposure limits.

Personal Protection: In accordance with OSHA 29 CFR 1910.132, subpart I, wear appropriate Personal Protective Equipment (PPE) to minimize exposure to this material.

Respiratory Protection: If workplace conditions warrant a respirator, a respiratory protection program that meets OSHA 29CFR 1910.134 must be followed. Refer to NIOSH 42 CFR 84 for applicable certified respirators.

Eye/Face Protection: Wear splash resistant safety goggles with a face shield. An eye wash station should be readily available near areas of use.

Skin and Body Protection: Personal protective equipment for the body should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product. Chemical-resistant gloves should be worn at all times when handling chemicals.

9. PHYSICAL AND CHEMICAL PROPERTIES

Descriptive Properties:

Thermal Stability Properties:

Autoignition Temperature (°C):	not applicable
Thermal Decomposition (°C):	380 (716 °F)
Initial boiling point and boiling range (°C):	not applicable
Explosive Limits, LEL (Volume %):	not applicable
Explosive Limits, UEL (Volume %):	not applicable
Flash Point (°C):	not applicable
Flammability (solid, gas):	not applicable

10. STABILITY AND REACTIVITY

Reactivity: Stable at normal temperatures and pressure.

Stability: X Stable Unstable

Possible Hazardous Reactions: May ignite or explode on contact with reducing agents.

Conditions to Avoid: Avoid contact with combustible materials.

Incompatible Materials: Acids, combustible materials, cyanides, metal oxides, metal salts, metals, reducing agents.

Fire/Explosion Information: See Section 5, "Fire Fighting Measures".

Hazardous Decomposition: Thermal decomposition will produce oxides of nitrogen, oxides of potassium.

Hazardous Polymerization: Will Occur X Will Not Occur

11. TOXICOLOGICAL INFORMATION

Route of Exposure: X Inhalation X Skin X Ingestion

Symptoms Related to the Physical, Chemical and Toxicological Characteristics: Eye, skin, and respiratory irritation, cyanosis.

Potential Health Effects (Acute, Chronic and Delayed):

Inhalation: Acute exposure may result in cough, sore throat, respiratory tract irritation, and shortness of breath. No data listed for chronic exposure.

Skin Contact: Contact may cause irritation. Severity of the irritation depends on the duration of exposure. No data listed for chronic exposure.

Eye Contact: Contact with powder may cause mechanical irritation.

Ingestion: Ingestion of large quantities may also cause gastrointestinal irritation accompanied by bloody diarrhea, hematuria, catharsis, diuresis, albuminuria, and oliguria. The effects of repeated exposure to nitrates may lead to weakness, general depression, headache, mental impairment, anemia, nephritis, and possibly methemoglobinemia.

Numerical Measures of Toxicity:

Acute Toxicity: Not classified.

Rat, Oral LD50: 1267 mg/kg

Skin Corrosion/Irritation: Not classified; no data available.

Serious Eye damage/ Eye irritation: Not classified.

Respiratory Sensitization: No data available.

Skin Sensitization: No data available.

Germ Cell Mutagenicity: No data available.

Carcinogenicity: Not classified.

Listed as a Carcinogen/Potential Carcinogen _____ Yes _____ X No

Sodium nitrate is not listed by NTP, IARC, or OSHA as a carcinogen/potential carcinogen.

Tumorigenic: Rat, Oral: 913 gm/kg, (2 y)

Mutagenic: Rat: 13 g/kg (6 w)

Reproductive Toxicity: Not classified.

Mouse, Oral TDLo: 16 800 mg/kg (14 days)

Specific Target Organ Toxicity (STOT), Single Exposure: Not classified.

Specific Target Organ Toxicity, Repeated Exposure: Not classified; no data available.

Aspiration Hazard: Not applicable.

12. ECOLOGICAL INFORMATION

Ecotoxicity Data:

Fish: Bluegill (*Lepomis macrochirus*) LC50: 2000 mg/L (96 h) (static)

Persistence and Degradability: No data available.

Bioaccumulative Potential: No data available.

Mobility in Soil: No data available.

Other Adverse effects: No data available.

13. DISPOSAL CONSIDERATIONS

Waste Disposal: Dispose of waste in accordance with all applicable federal, state, and local regulations. Sodium nitrate subject to disposal regulations: U.S. EPA 40 CFR 262, Hazardous Waste Number: D001.

14. TRANSPORTATION INFORMATION

U.S. DOT and IATA: UN1498, Sodium nitrate, Hazard Class 5.1, Packing Group III.

15. REGULATORY INFORMATION

U.S. Regulations:

CERCLA Sections 102a/103 (40 CFR 302.4): Not regulated.

SARA Title III Section 302 (40 CFR 355.30): Not regulated.

SARA Title III Section 304 (40 CFR 355.40): Not regulated.

SARA Title III Section 313 (40 CFR 372.65): Not regulated.

OSHA Process Safety (29 CFR 1910.119): Not regulated.

SARA Title III Sections 311/312 Hazardous Categories (40 CFR 370.21):

ACUTE HEALTH: No.

CHRONIC HEALTH: No.

FIRE: Yes.

REACTIVE: No.

PRESSURE: No.

State Regulations:

California Proposition 65: Not listed.

U.S. TSCA Inventory: Listed.

TSCA 12(b), Export Notification: Not listed.

Canadian Regulations:

WHMIS Information: Not provided for this material.

Disclaimer: Physical and chemical data contained in this SDS are provided only for use in assessing the hazardous nature of the material. The SDS was prepared carefully, using current references; however, NIST does not certify the data in the SDS. The reference values for this material are given in the NIST Report of Investigation.

Users of this RM should ensure that the SDS in their possession is current. This can be accomplished by contacting the SRM Program: telephone (301) 975-2200; fax (301) 948-3730; e-mail srmmsds@nist.gov; or via the Internet at <http://www.nist.gov/srm>.
