

105.9 - Biomaterials (solid forms)

Biomaterials are found in medical devices that are in intimate contact with tissues and body fluids.

PLEASE NOTE: The tables are presented to facilitate comparisons of materials to help customers select the best SRM for their needs. For specific values and uncertainties, the certificate is the only official source.

SRM	Description	Unit Size	Properties
2910b	Hydroxyapatite	2 g	Calcium Phosphorus Ca/P Molar Ratio
8012	Gold Nanoparticles, Nominal 30 nm Diameter	2 x 5 mL	Reference Values for Particle Size Information Values for Chemical and Electrochemical Properties
