

## 208.2 - Electrical Properties of Dielectrics

SRM 624 is a lead-silica glass block that is intended to validate test methods and for calibrating equipment used to determine the dc volume resistivity of glass per ASTM C 657.

PLEASE NOTE: The tables are presented to facilitate comparisons among a family of materials to help customers select the best SRM for their needs. For specific values and uncertainties, the certificate is the only official source.

**Description >>    Lead-Silica Glass for dc Volume Resistivity**  
**Unit of Issue >>                    200 g**

<b>Geometry and Unit Size</b>	Block 5 cm square 2.5 cm thick
<b>Parameter(s)</b>	DC Volume Resistivity
